General Description of the Internship Experience

The Sport and Fitness Management internship experience in Hospitality, Sport & Tourism Management is assigned three (3) credit hours. Such experiences offer the student the opportunity to apply theory and methodology under qualified from the cooperating agency and the university. An internship on the graduate level is an option for all students in the Sport and Fitness Management program under the title SFM 6690 Internship. All students work under the supervision of university and agency supervisor for the full semester in which the student is enrolled for the internship credit. The internship experience is meant to be a full time experience and requires a **minimum of 400 hours** over at **least a twelve to fourteen** week block. Additional hourly assignments may be required depending upon the type of experience undertaken. Assigned supervisors from both the agency and the University will share supervision of the student jointly.

Financial compensation to the student during the practicum/internship experience is not required. The student may not receive credit for work being done at an agency where he/she is presently employed. Exceptions to this policy must be approved by the internship program coordinator **before** receiving credit, and must include experiences additional to those for which the student has been compensated.

Academic evaluation of the student during the practicum/internship experience is based upon the following: evaluation by the field supervisor, evaluation by the university supervisor and documentation of daily/weekly assignments.

Types of Internship Experiences

Because each agency is unique and each student has special skills and interests, the practicum/internship experience must be individualized. It is anticipated each student will have will have an opportunity to gain experience in all or most of the following areas:

1. **Client interaction:** the student should have the opportunity to interact with the agency clientele in any way in which the agency feels appropriate. This may include teaching group lessons, working one on one with specific individuals, assist in exercise testing and prescription, etc. (The student should realize that the type of client interaction made available to him/her will vary depending on the type of field experience and the agency's needs and regulations.)
2. **Administration:** The student should have an opportunity to study and observe in action the policies and practices of the agency. This would include the study of the legal status of the agency, organizational structure, board relations, financial and supervisory

practices, general staff relations, and the values of the techniques used in dealing with the public in a courteous and effective manner.

3. **Programming:** The student should not only help plan but also help put into action a broad program of activities and services characteristic of the agency. The student should prepare program plans in an effective manner consistent with the agency's procedures and act as a leader in carrying out various types of programs.
4. **Facilities:** The student should have opportunities to gain theoretical and practical experience in facility operation and/or planning, equipment selection, security, equipment maintenance, etc.
5. **General Experience:** The student should gain a broad experience in dealing with public relations problems, attend administrative meetings where possible, work with committees, visit with individuals in the agency, and get as wide of a range of experiences as possible.
6. **Day-to-Day Activities:** In order to give the student a realistic work experience, he/she would be encouraged to fully participate in the day-to-day activities of the agency. These experiences may occasionally include such "mundane" activities as record keeping and handing out towels, etc. however, keep in mind that the practicum/internship should be a learning experience for the student and not just "free labor." Therefore, the agency is encouraged to offer the student a variety of challenging experiences.

The student is responsible for completing the requirements of the internship experience as provided by the University supervisor and following the general guidelines listed below:
