Registering via Student Self-Service Portal (Student Planning)
There are multiple ways you may register through Student Planning. This guide will go through registration beginning in the Course Catalog. You will also see options to register in My Progress and, if you have planned courses, in your Timeline under Plan & Schedule.

1. From the Students Menu in Trojan Web Express, select Student Self-Service and then select Student Planning.
2. In the Course Catalog you can begin by selecting a discipline or entering the department in the search box. To search for a course you must type the name of the department, not the abbreviation (ex. Mathematics, not MTH). On the left-hand side of the screen, you can also filter the courses currently being offered by specifying location and term.
3. Once you find a course you would like to register for, click on View Available Sections and then click Add Section to Schedule.
4. In the pop-up, click Add Section to Schedule to add the course. Leave the Grading selection as Graded unless you plan to Audit the course.
5. Go to your Schedule under Plan & Schedule. Use the arrows to toggle to the correct semester/term. The course will be yellow since you are not registered for this course and section. To register for the course, click Register Now on the planned course. Once registered, the course will appear green and will indicate that you are registered. You may drop your class(es) by clicking Drop and selecting the desired class(es). In order to withdraw (drop all classes), you must contact the Records Office.

If registration “fails” due to lack of prerequisite, contact your advisor for assistance.

If you should need additional assistance, feel free to call 800-414-5756, email ask@troy.edu, or submit a helpdesk ticket via http://helpdesk.troy.edu.

Disability Services

Who we are
The Disability Services Office provides accommodations to students with physical, psychological and learning disabilities in accordance with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973.

Student Responsibility
While Section 504 and the ADA require postsecondary institutions to provide accommodative services to students with disabilities, once the student has been admitted to the University, it is the student's responsibility to self-identify and provide documentation of the disability. The University will not provide accommodations until the student (1) comes by The Disability Services Office and requests services, and (2) provides recent documentation of his or her disability by a qualified professional.

Examples of what we can do for you
- Determine reasonable and appropriate accommodations according to the documented disability. These letters are provided to each instructor; it only includes the appropriate accommodations. We will never disclose your medical diagnosis with anyone.
- Assist students in procuring adaptive technology and equipment as required
- Assist with the registration process, paying particular attention to areas of academic strength and weakness, so as to not overload or overwhelm the student.
