

Tyler David Martin, Ph.D., CSCS

Associate Professor
Department of Kinesiology & Health Promotion
102 Sartain Hall
Troy University
Troy, AL 36082
Office: 334-808-6291
tdmartin@troy.edu

EDUCATIONAL RECORD

Doctor of Philosophy (Ph.D.), 2011

Passed Oral Defense of Dissertation: August 1, 2011

Graduation Date: December 16, 2011

The University of Southern Mississippi

College of Health

School of Human Performance and Recreation

Major: Human Performance – Exercise Physiology Emphasis

Dissertation Title: The Effect of Six Weeks of Oral Echinacea

Supplementation on Erythropoiesis, Nitric Oxide Production, and Exercise Performance

Advisor: Michael J. Webster, Ph.D., FACSM

Committee: Timothy P. Scheett, Ph.D., CSCS
Geoffrey M. Hudson, Ph.D., CSCS
Gregor Kay, Ed.D.

Master of Science (M.S.), 2005

The University of Southern Mississippi

College of Health

School of Human Performance and Recreation

Major: Human Performance – Exercise Science Emphasis

Advisors: Michael J. Webster, Ph.D., FACSM
Timothy P. Scheett, Ph.D., CSCS

Bachelor of Science (B.S.), 2003

Mississippi State University

College of Education

Department of Health, Physical Education, Recreation and Sport

Major: Physical Education - Fitness Management

Advisor: Joseph A. Chromiak, Ph.D., FACSM

PROFESSIONAL EXPERIENCE

Troy University:**Associate Professor**

Department of Kinesiology and Health Promotion
Troy University, Troy, AL
August 1, 2014 - Present

*Granted tenure and promoted to rank of Associate Professor by Troy University (Approved January 27, 2014).

Assistant Professor

Department of Kinesiology and Health Promotion
Troy University, Troy, AL
August 1, 2008 – July 31, 2014

The University of Southern Mississippi:**Graduate Research Assistant - Sports and High Performance Materials**

School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
September 1, 2006 – May 31, 2008

Instructor (Visiting) - Exercise Science

School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
September 1, 2005 – August 31, 2006

Research Assistant - Laboratory of Applied Physiology and Laboratory of Exercise Biochemistry

School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
Summer 2005

Graduate Internship - Strength and Conditioning Coach, The University of Southern Mississippi Athletics

School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
August 2004 - May 2005

Graduate Assistant - Fitness Instructor, YMCA - Petal, MS

School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
Summer 2004

**Graduate Research Assistant – Exercise Science, Laboratory of Applied
Physiology and Laboratory of Exercise Biochemistry**
School of Human Performance and Recreation
The University of Southern Mississippi, Hattiesburg, MS
January 1, 2004 – April 30, 2005

Mississippi State University:

Undergraduate Internship - Physical Therapy, HEALTHSOUTH – Columbus, MS
Department of Health, Physical Education, Recreation and Sport
Mississippi State University, Starkville, MS
Fall 2002 - Spring 2003

TEACHING EXPERIENCE

**DEPARTMENT OF KINESIOLOGY & HEALTH PROMOTION
TROY UNIVERSITY
TROY, AL
Fall 2008 – Present**

Graduate Courses, Summer 2010 – Spring 2018

KHP/SFM 6620 (3) – Physical Fitness: A Critical Analysis. The course involves an examination of the effects of physical activity on various fitness and health parameters by reviewing current research studies. Students will be introduced to methods of evaluating one's fitness level and the proper prescription guidelines. **(8 Semesters)**

KHP/SFM 6623 (3) – Biomechanics of Sport Techniques. This course is designed to prepare the student for the National Strength and Conditioning Association (NSCA) Certified Strength and Conditioning Specialist (CSCS) certification. The course explores basic biomechanical concepts and their application in the analysis of sport technique. Students will apply scientific knowledge to examine sport-specific testing assessments and interpretation of results, and practice the implementation of safe and effective training techniques for the goal of improving athletic performance. *Prerequisite: KHP 6650.* **(1 Semester)**

KHP 6650 - ONLINE (3) - Sport Nutrition and Exercise Metabolism. This course examines established dietary requirements of athletes relative to performance, training, and recovery. Emphasis will be placed on the use of peer reviewed literature to understand the importance of pre- and post-event nutrition, nutritional issues faced by athletes, and possible ergogenic strategies, foods, and dietary supplements. Examination of metabolic pathways and will allow advanced interpretation of the metabolism and macronutrients during conditions of exercise and disordered metabolism. *Prerequisite: KHP 6670.* **(2 Semesters: Taught as SFM 6625 – Specialized Study in SFM or HPE)**

SFM 6670 – ONLINE (3) – Exercise Physiology. This course examines acute and chronic physiological responses of the respiratory, cardiovascular, and musculoskeletal systems, to demands of exercise. Contributions made by aerobic and anaerobic metabolism to energy production will be examined. The contribution of various physiological variables will be investigated to facilitate an understanding of the physiological basis of human performance. **(2 Semesters)**

KHP/SFM 6670 (3) – Exercise and Disease Prevention. This course examines the scientific evidence in support of the beneficial effect of regular physical activity on reduced mortality from all causes – from diseases such as cardiovascular diseases, non-insulin dependent diabetes mellitus and colon cancer, and from conditions such as obesity and high blood pressure. **(1 Semester)**

KHP/SFM 6671 (3) – Advanced Exercise Physiology. This course will allow students to experience and explore advanced concepts, topics, and laboratory techniques related to exercise physiology. Material covered in this course will prepare students to interpret, conduct, and share advanced material with their peers. Students will have the opportunity to implement an advanced research project or commence thesis-related research.
Prerequisite: KHP 6650. (6 Semesters; Spring 2018 [Independent Study])

Undergraduate Courses, Fall 2008 – Spring 2018

KHP 2240 (3) – Personal and Community Health. A study of personal health as it applies to knowledge, practices, and behavior, and community organization for health, including environmental health, epidemiology, and medical services. **(7 Semesters)**

KHP 2250 (1) – ONLINE – Foundations of Health Science. A study of the historical, philosophical and theoretical foundations of health education and health promotion, including the current status and projected trends in health education and promotion. **(1 Semester)**

KHP 2251 (2-2) – Foundations of Physical Education and Sport-Fitness Management. A study of the history and principles of health education and physical education with particular emphasis placed on present practices and trends. **(2 Semesters)**

KHP 2251 (3) – ONLINE - Foundations of Physical Education Health. A study of the history and principles of health education and physical education with particular emphasis placed on present practices and trends in exercise science. *Prerequisite: Student must be a Health Education, Physical Education, or Exercise Science Major.* **(7 Semesters + Term 4, 2018)**

KHP 2260 (2) – ONLINE – Applied Fitness Concepts. Personal conditioning-based course focusing on training principles, modes of exercise, training tools, performance enhancers, measurement concepts and exercise prescription. **(4 Semesters)**

KHP 3352 (3-3) – Kinesiology and Efficiency of Human Movement. The analysis of human movement based on anatomical and mechanical principles. Emphasis is given to the application of these principles to the understanding of human movement and athletic performance. *Prerequisites: BIO 3347/L347 & 3348/L348 or KHP 3360.* **(21 Semesters + Spring 2018)**

KHP 3352 (3) – ONLINE – Kinesiology and Efficiency of Human Movement. The analysis of human movement based on anatomical and mechanical principles. Emphasis is given to the application of these principles to the understanding of human movement and athletic performance. *Prerequisites: BIO 3347/L347 & 3348/L348 or KHP 3360.* (1 Semester)

KHP 3355 (3) – Introduction to Sport and Fitness Management. This course is an introductory course for students who wish to enter the professional field of sport and/or fitness management. Students will be exposed to a variety of subjects related to sport and fitness management. (7 Semesters)

KHP 3360 (3-3) – Physiological Principles of Body Systems. This course will examine the structure, function and control mechanisms of the following body systems: musculoskeletal, nervous, endocrine, cardiovascular, and respiratory. Metabolism, temperature regulation, and fluid, electrolyte, and acid base balance will also be discussed. *Prerequisites: BIO 1100/L100 and CHM 1142/L142; or SCI 2233/L233; or PHY 2252/L252.* (13 Semesters + Spring 2018)

KHP 4400 (3-3) – Sports Officiating and Programs in Intramurals. Focuses on school and community recreation programs, including sports, games and officiating techniques. (2 Semesters)

KHP 4400 (3) – ONLINE - Sports Officiating and Programs in Intramurals. Focuses on school and community recreation programs, including sports, games and officiating techniques. (1 Semester)

KHP 4405 (3) – Physical Activity and Disease Prevention. This course will explore the link between physical activity and the major diseases experienced by modern day humans. Evidence for and against the potential benefits of physical activity will be reviewed for conditions such as coronary heart disease, cancer, stroke, diabetes, arthritis, low back pain, asthma, infection, high blood cholesterol, high blood pressure, obesity, and stress. *Prerequisites: BIO 1100/L100, CHM 1142/L142 or PHY 2252/L252 or SCI 2233/L233, KHP 3360.* (8 Semesters; Spring 2018 [Independent Study])

KHP 4460 (3) – Principles of Strength and Conditioning. This course will enable the student to develop knowledge and expertise in the areas of strength training, cardiovascular endurance, flexibility, reaction time, speed, and agility in traditional and non-traditional sports. Emphasis will be placed on implementation and measurement of the above programs in conjunction with athletic development. *Prerequisites: Grade of C or better in KHP 3360 or BIO 3347/L347 and BIO 3348/L348 and KHP 3352. Co-requisite: KHP L460.* (1 Semester)

KHP L460 (1) – Principles of Strength and Conditioning Lab. This lab is designed to develop practical knowledge and expertise in the areas of strength training, cardiovascular endurance, flexibility, reaction time, speed, and agility in traditional and non-traditional sports. Emphasis will be placed on implementation and measurement of the above programs in conjunction with athletic development. *Co-requisite: KHP 4460.* (1 Semester)

KHP L474 – Exercise Physiology Laboratory. Course will provide experience for applied exercise physiology principles as students are introduced to laboratory and field tests of muscular strength, anaerobic power, maximal oxygen uptake, body composition and other physiological measurements. *Co-requisite: KHP 4474. (8 Semesters)*

KHP 4475 (3-3) – Exercise Testing and Prescription. Course will examine the criteria for evaluation of health status of persons wishing to begin an exercise program, guidelines of establishing current fitness level, and the basic principles of exercise prescription. Levels of certification and criteria by ACSM will also be discussed. *Prerequisite: KHP 4474/L474. (15 Semesters [16 sections] + Spring 2018)*

KHP 4476 (2-2) – Laboratory Practicum in Exercise Performance. Students will be introduced to some of the measurement techniques routinely used in exercise physiology and will gain practical experience in administration of these tests. Emphasis will be placed on how to avoid measurement errors. *Prerequisite: KHP 4475. (13 Semesters [16 sections] + Spring 2018 [2 sections])*

KHP 4483 (2-2) – Theory and Techniques of Coaching Baseball. Offensive and defensive techniques, purchase and care of equipment, budgeting, batting and field drills, rules, scouting and team conditioning. **(3 Semesters)**

KHP 4487 (2-2) – Special Topics in Exercise Performance. An intensive study of selected topics in exercise science. Topics to be taught each term TBA. *Prerequisite: KHP 4474 or permission of instructor. (3 Semesters + Spring 2018)*

KHP 4488 (3-3) – Issues and Practice in Cardiac Rehabilitation. Course will examine the policies and procedures of cardiac rehabilitation programs. Students will be introduced to the phases of cardiac rehabilitation programs, administration and reporting of graded exercise stress tests, administration of exercise sessions, reporting procedures, and techniques of successful patient educational programs. *Prerequisite: KHP 4475. (3 Semesters)*

KHP 4490 (6) – Internship in Area of Concentration. A supervised experience in planning, staging and evaluating a formal practicum in related field. *Prerequisite: Permission of the department chair. (1 Semester: co-supervised)*

KHP 4493-94 Guided Independent Study (1 to 3 credit hours). Supervised study through internship, field or laboratory projects, guided readings, creative endeavors, or achievement in specific skills. *Prerequisite: Junior or senior standing, permission of guiding professor, approval of the department chair and dean. (1 Semester [substitute for KHP 4405])*

KHP 4497 (1) – Senior Seminar in Exercise Science. Students will examine trends in the industry, career paths, and discuss current topics in wellness, fitness, sport, nutrition, athletic training and physical therapy. This course will also address the standards, behaviors, and expectations of the exercise scientist. **(4 Semesters + Spring 2018; Service: 1 Semester)**

KHP 4498 (3) – Internship in Exercise Science. A supervised experience in planning, staging, and evaluating a formal practicum in exercise science or a related field.

Prerequisite: Sr. standing or permission of instructor.

(5 Semesters; Service: 3 Semesters)

LETTERS OF RECOMMENDATION – Fall 2008 – Spring 2018

AY 2009-2010: (1) 1 Graduate

AY 2010-2011: (4) 2 Pre-Health; 1 Graduate, 1 Award

AY 2011-2012: (12) 7 Pre-Health; 1 Graduate; 1 Medical; 2 Job; 1 Grad. Assist.

AY 2012-2013: (4) 4 Pre-Health

AY 2013-2014: (4) 2 Pre-Health; 2 Graduate

AY 2014-2015: (8) 2 Pre-Health; 4 Graduate; 2 Job

AY 2015-2016: (11) 4 Pre-Health; 4 Scholarship; 2 Award; 1 Internship

AY 2016-2017: (21) 14 Pre-Health; 5 Graduate; 1 Honor Society; 1 Grad. Assist.

AY 2017-2018: (22) 10 Pre-Health; 10 Graduate; 1 Job; 1 Phone

Total: 87 Letters of Recommendation (61 students)

ACADEMIC ADVISING – Fall 2008 – Spring 2018

Department of Kinesiology and Health Promotion, Troy University, Troy, AL

Exercise Science Majors (Spring 2013 – Present)

Exercise Science Minors (Fall 2008 – Spring 2015)

Sport and Fitness Management Majors (Fall 2008 – Spring 2015)

**SCHOOL OF HUMAN PERFORMANCE AND RECREATION
THE UNIVERSITY OF SOUTHERN MISSISSIPPI
HATTIESBURG, MS
Fall 2005 – Summer 2006**

Undergraduate Courses, Fall 2005 – Summer 2006

HPR 101 – Weight Training. 1 hr. Theoretical bases and laboratory experiences in development of muscular strength, flexibility, and cardiovascular endurance. **(1 Semester)**

HPR 105 – Concepts in Physical Fitness. 1 hr. The course is designed to develop understanding in the conceptual knowledge of health and fitness in the development and maintenance of human wellness. **(1 Semester)**

HPR 202 – Introduction to Exercise Science. 1 hr. Prerequisite: HPR majors or permission of instructor. Introduction to the disciplines within exercise science, including the historical background, terminology, professional preparation, and careers. **(2 Semesters)**

HPR 302 – Exercise Testing and Prescription. 3 hrs. Prerequisites: HPR 308, HPR 308L. This course provides the student with the necessary cognitive skills and appropriate lab experiences to evaluate fitness in a systematic and safe manner. **(2 Semesters)**

HPR 304 – Nutrition and Human Performance. 3 hrs. Prerequisites: HPR 308, HPR 308L; NFS 362 or NFS 367; CHE 106, 106L. HPR majors and minors only. The analysis and synthesis of available literature relative to nutrition and human performance. **(2 Semesters)**

HPR 310 – Pre-Internship in Exercise Science. 2 hrs. Prerequisites: HPR 302, HPR 308, HPR 308L, HPR 342, or permission of instructor. Exercise science majors only. Preparation for the internship experience, which consists of observation and practicing at potential exercise science internship sites, interviewing for internship positions and writing the internship proposal. **(2 Semesters)**

HPR 422 – Exercise Leadership. 3 hrs. HPR majors and minors only. Prerequisites: HPR 308, HPR 308L. Application of the principles of exercise leadership and prescription, fitness program development and implementation. **(1 Semester)**

HPR 470 – Development of Strength and Conditioning Programs. 3 hrs. The development and administration of strength, endurance, flexibility, speed, and agility programs. **(2 Semesters)**

LETTERS OF RECOMMENDATION – Fall 2005 – Spring 2006

AY 2005-2006: 2 Graduate; 2 On-Campus Organizations

Total: 4 Letter of Recommendations (4 students)

SCHOLARSHIP AND CREATIVE ACTIVITY

Scholarship Growth and Development - Reading Current Professional Journals:

***Medicine & Science in Sports & Exercise* (monthly issues)**

The American College of Sports Medicine's flagship monthly journal, is the leading multidisciplinary original research journal for members. Each issue features original investigations, clinical studies and comprehensive reviews on current topics in sports medicine and exercise science.

Subscription/Reading: 2011 - Present

***The Journal of Strength and Conditioning Research* (monthly issues)**

The journal publishes peer-reviewed, evidence-based, original research, symposia, reviews, technical reports, and research notes to provide educational content with a mission to advance the strength and conditioning industry.

Subscription/Reading: 2009 – Present

***Strength and Conditioning Journal* (6 issues per year)**

The journal disseminates peer-reviewed articles about research-based training for professionals working in the strength and conditioning industry. Its mission is to provide access to practical application of the latest research findings and the knowledge gained by experienced professionals.

Subscription/Reading: 2009 – Present

2009 Southeast Regional Chapter, American College of Sports Medicine 37th Annual Meeting. Wynfrey Hotel, Birmingham, AL, February 12 – 14, 2009.

COMPUTER/TECHNICAL SKILLS

Troy University Blackboard Proficient for online teaching.

Troy University CANVAS Proficient for online teaching.

Teaching Website: <http://sites.google.com/site/tdmcourses/>

Students may be provided: course lectures, syllabi, handouts, notes, quizzes, assignments, and announcements for download.

Teaching/Research:

Microsoft Word, Power Point, Excel, SPSS, Troy University Classroom Technology, Department of Kinesiology and Health Promotion Portable Classroom Technology

Exercise Physiology Laboratory/Research Experience:

Phlebotomy-Blood Collection and Storage, Metabolic Measurement Systems, Electrocardiography (ECG) Systems, Cybex, Microplate Readers, ELISA

Observation:

Methodist Rehabilitation Center, Jackson, MS. Fall 2007

Motion Analysis – EVaRT 5.0, EMG, Force Plates - Bertec, OrthoTrak, GaitRite Systems, Biodex

Polymer Science Laboratory Experience (Spring – Summer 2007):

Size Exclusion Chromatography (SEC), Nuclear Magnetic Resonance (NMR) and Fourier Transform Infrared (FT-IR) Spectroscopy, Real-time FT-IR Alternated Total Reflectance (ATR) Spectroscopy

PROFESSIONAL CERTIFICATIONS

Certified Strength and Conditioning Specialist (CSCS)

National Strength and Conditioning Association

Initial Certification: May 2, 2006 - Present. CSCS#: 200629022

(Recertification: January 1, 2009; January 1, 2012; January 1, 2015; *In-Progress:*

Expected January 1, 2018)

Certified Interscholastic Coach (CIC)

The National Federation of State High School Associations (NFHS)

National Certification – NFHS National Coaching Certification Program

Completion Date: September 7, 2017

Courses Completed: *Bullying, Hazing and Inappropriate Behaviors*, September 6, 2017; *Heat Illness Prevention*, August 4, 2017; *Strength and Conditioning*, September 7, 2017; *Teaching and Modeling Behaviors*, September 6, 2017; *Engaging Effectively With Parents*, September 6, 2017; *Sportsmanship*, August 4, 2017; *Fundamentals of Coaching*, August 23, 2017; *First Aid, Health and Safety*, August 28, 2017; *Concussion in Sports*, August 4, 2017; *Sudden Cardiac Arrest*, August 4, 2017; *Coaching Baseball*, August 30, 2017.

Accredited Interscholastic Coach (AIC)

The National Federation of State High School Associations (NFHS)

National Certification – NFHS National Coaching Certification Program

Completion Date: August 30, 2017

Courses Completed: *First Aid, Health and Safety*, August 28, 2017; *Fundamentals of Coaching*, August 23, 2017; *Concussion in Sports*, August 4, 2017; *Coaching Baseball*, August 30, 2017.
