

## **MSN Program Outcomes**

Upon successful completion of the MSN program, the student will be able to:

1. Incorporate advanced knowledge and theories from nursing and related disciplines to continually improve nursing care across diverse settings;
2. Integrate leadership, management and education principles into advanced nursing care that utilizes ethical and critical decision-making;
3. Apply the evolving standards and principles of quality improvement and safety for advanced nursing within a defined setting;
4. Evaluate research outcomes and current evidence in conjunction with culturally-appropriate, patient-centered care for the purpose of selectively integrating research findings into the practice setting;
5. Manage informatics and communication technologies to enhance, integrate and coordinate appropriate patient care;
6. Develop interdisciplinary advocacy strategies to impact healthcare policy at the system level;
7. Communicate, collaborate and consult as a leader and member of intraprofessional and interprofessional teams for improvement of health care outcomes;
8. Integrate clinical prevention interventions for the provision of culturally responsive advanced nursing care to individuals and populations in a global society;
9. Demonstrate role competencies in a specialized area of advanced nursing practice at the master's level.
