

TROY UNIVERSITY'S ACCELERATE DUAL ENROLLMENT ONLINE

High School Administrators

Give your students a jump-start on their college education.

We hope you are considering partnering with TROY to offer ACCELERATE Dual Enrollment Online through your high school. Competition is fierce among college applicants, and your students deserve every advantage available. ACCELERATE Dual Enrollment Online will give your students an edge by allowing them to earn college credit while still enrolled in high school.

What is ACCELERATE Dual Enrollment Online?

ACCELERATE Dual Enrollment Online allows eligible students to earn college credit while enrolled in high school by taking challenging and enriching college courses through Troy University's eCampus. All courses are completed online, which makes scheduling easier for students and parents. Given the popularity of dual enrollment today, there is no reason why your students can't have this opportunity—on their own terms, all online.

What are the benefits for students?

Preparation for college

Having a few college credits under their belts prior to high school graduation will give your students an extra boost of confidence as they embark on their collegiate careers. The workload for ACCELERATE Dual Enrollment Online will give students a true representation of what will be expected of them in college. Their experiences will strengthen their time management and study skills while they are still surrounded by the safety net of home, family and friends. Therefore, they will be more prepared for the demands of college by participating in the program. How many credits a participating student gets before earning his or her high school diploma is up to each individual student.

Higher grade point averages

On average, participants in dual enrollment programs have significantly higher cumulative college GPAs than their peers who do not participate in dual enrollment. So, the advantages of participation will continue to be seen, even after the students have graduated from high school.

Enriching courses

Thanks to TROY's many resources, ACCELERATE Dual Enrollment Online is able to offer challenging and exciting classes that your students might not otherwise have the opportunity to take. Your students will interact with people

from a variety of backgrounds and experiences, which is sure to broaden their worldviews and make them more well-rounded individuals. Certified Troy University faculty will provide all instruction for the program.

Positive community feedback

When you offer students at your high school this opportunity, you will reap the benefits because this program is worthwhile for your students and an advantage for the community as a whole. When students graduate from your school and are already classified as college freshmen and higher, their parents will speak highly of your school and the program.

Why partner with TROY?

Troy University is known as a leader in distance education around the world. We boast state-of-the-art technology to support ACCELERATE students.
